

Hello World¶

This is a **test** document with *emphasis* and `inline code`.

Code Samples¶

```
def greet(name: str) -> str:  
    """Return a greeting."""  
    return f"Hello, {name}!"  
  
print(greet("world"))
```

```
echo "hello"  
ls -la
```

Table¶

Name	Age	City
Alice	30	New York
Bob	25	London

Blockquote¶

This is a blockquote with some text inside it.

List¶

- Item one
- Item two
- Nested item

- Item three
